***The 12-Hour Shadow***  
**FOR THE 24-HOUR WOMAN**

These 3 pieces are general sizes. You'll probably need to trim them a little for a great fit.

**Instructions for eye shadow Pro Palette:**

Print. Cut out all 4 components. Laminate and recut. (I laminated to help keep them clean.)

Glue dot laminated eyeshadow diagram to the inside top of the Pro Palette.

Add Chromafusion eye shadows in magnetic bottom according to the diagram.

Add bling to the \*2 blank squares. Add a border of bling to the \*"24-hour woman rectangle." \*Glue to magnetic sheet if needed/desired. (I didn't need to since they're a tight fit.) Cut.

Place 3 blinged out pieces in appropriate empty spaces in Pro Palette.
